Report on the Annual General Meeting of BB Action Group Ltd
held at St Columba's Church, Knightsbridge, London.
on Saturday the 26th May 2012

The formal meeting commenced with the resolutions specified in the AGM notice. The 2011 Accounts and the re-election of David Blundell and Roger Lawson as directors were approved unanimously.

The presentation of the campaign's progress to date was followed by an open question and answer session in which the members were encouraged to contribute. There were a large number of questions and suggestions with broad agreement on the objectives of securing an independent inquiry, the need for more media exposure and the Freedom of Information Act [FOIA] requests which have culminated in the Information Commissioner's Office [ICO] pursuing two separate investigations into the conduct of the Cabinet Office and the Treasury. It was suggested that the Parliamentary Ombudsman [PO] should be approached, this has been done and it has confirmed its possible role in this matter dependent on the findings of the ICO investigations.

The meeting confirmed that the campaign should continue so as to try and obtain restitution for the ordinary shareholders and to protect the interests of the PIBS holders.

David Blundell
Chairman BBAG
