

The Nationalisation of Bradford & Bingley (B&B).

Expropriation Without Explanation.

Several months ago BBAG filed a formal complaint against the Cabinet Office (CO) on the grounds of maladministration with the Parliamentary Ombudsman, this relates to the reply to a freedom of information (FOIA) request at the time of the B&B nationalisation stating by the CO it did not have any records.

THIS COMPLAINT IS ONGOING.

It was only in 2011 after your chairman David Blundell had read Gordon Brown's book "Beyond the Crash" that it admitted after several further FOIA requests that it did have such records which it refused to divulge on the grounds of public interest.

Please find a link below to a letter sent to George Osborne which is self explanatory, this makes clear that when the truth in respect of the B&B nationalisation is uncovered it will indicate the UK Government and the tripartite regulatory authorities will be found guilty of gross misfeasance.

David Blundell
Chairman BBAG
